

FiscalBooks

General Ledger Management:

Allows for detailed tracking and management of financial transactions, including customizable reporting and account setup.

FiscalBooks provides an integrated and flexible accounting system tailored for the needs of Kentucky municipalities, aiming to improve financial management and reporting efficiency.

Key Features

Accounts Payable

Streamlines the process of managing invoices, payments, and vendor relationships with features for tracking and reporting.

Accounts Receivable

Facilitates the management of receivables, including billing, collections, and reporting.

Budget Management

Supports the creation, tracking, and management of budgets, with tools for budget adjustments and financial forecasting.

Fixed Assets

Manages the tracking and depreciation of fixed assets, ensuring accurate financial reporting.

Multi-Fund Accounting

Handles multiple funds, with capabilities for tracking and reporting on various financial entities separately.

Custom Reporting

Offers extensive reporting capabilities with customizable templates to meet specific reporting requirements.
